Richard Wells: coach of the team

♣ **When the first edition of this newsletter appeared in July 1992, Richard Wells was eight months into his tenure as library director.**

In his inaugural "From the Director" column, he focused not on his plans or his background, but on the changes taking place at the library and the people behind those changes. He concluded: "I am simply the coach of a very good team."

Freeing people to do what they do best, and trusting them to do it, has been the hallmark of Richard's career, both as library director then as county manager (I certainly wouldn't be in a position to write this column without his inspiration and support). He's also incredibly effective in building relationships among people, institutions, local governments and other interests.

These talents have led to an incomparable string of accomplishments and advancements for the library and for the county. But as much as Richard is loathe to take credit, he's quick to share it — or just give it away!

Richard became library director in 1991, a difficult time for the library system. "We are working hard here to modernize the Asheboro/Randolph Public Library, particularly in the manner in which we accomplish our duties in serving the library users of Randolph County," he wrote in that first newsletter column.

And modernize he did. Within a year, a new library building was underway in Archdale, along with a new governance

arrangement between the city and the county. Within two years, Asheboro voters had passed a bond referendum to expand their library, and within two more years that expansion was complete. Within six years library functions were computerized.

Also within two years, Richard was named Director of the Year by his colleagues in the North Carolina Public Library Directors Association.

Then there was the new Seagrove library, a partnership among the county, the town and the Randolph County Schools. Groundwork was laid with the city and the county for the new Asheboro library parking lot. Collaboration with the Randolph County Partnership for Children resulted in projects that have had a life-changing impact on children and families.

Meanwhile, Richard headed up the efforts to preserve the 1909 Randolph County courthouse. As county manager, he saw the initiative through to completion, using the talents of our county building inspectors, who faced uncertain futures as construction slowed during the recession.

Speaking of the recession: county government weathered it with Richard at the helm, with no mass layoffs, no furloughs and no significant cuts to services.

Richard will be the first to credit all who had a hand in making these things happen: county and municipal elected and appointed officials; library staff and supporters; county staff and department heads; and community leaders. And rightly so.

But Richard was coach of the team.
